

One-Day Comprehensive Update

Cal/OSHA

Compliance

**Understanding, interpreting and
complying with the California standards**

Is your organization in compliance... or in denial?

Sign up for this seminar now — and avoid costly Cal/OSHA slip-ups in the future!

Cal/OSHA fines can be notoriously steep, and often there's no room for appeal. Don't leave yourself, or your organization, vulnerable to hefty penalties — gain all the hard facts, current information and essential details of Cal/OSHA compliance you need to know. Don't miss out on your chance to attend this information-packed program — it's one of our most popular and seats are guaranteed to fill fast!

It's not enough to *think* you're in compliance ...

It's a situation all too common: you assume you're in compliance with Cal/OSHA, but during a routine inspection, you are shocked at the number of violations you've racked up (and the hefty fines your organization will have to pay).

The implementation of a new law, AB 2774, which makes it easier for Cal/OSHA to *prove* your organization has committed a serious violation of California's safety regulations, has only muddied the waters, making compliance that much more important.

Attend this seminar — packed with timely, relevant information — and take the guesswork out of Cal/OSHA compliance. You'll discover the smart solutions, quick fixes and preventative measures to help you maintain a safe working environment and bring your organization up to Cal/OSHA's stringent safety standards.

When Cal/OSHA comes knocking, you'd better be sure!

In just one day of intensive, fast-paced training, we'll cover all the latest regulatory information concerning safety, health and environmental issues in the workplace. We'll translate hard-to-follow government "legalese" into practical, no-nonsense language that's easy to understand and implement. And we'll get into the key differences between federal OSHA and Cal/OSHA, so you know exactly what's expected of you.

You'll quickly develop an understanding of the employer's and employee's rights and responsibilities when it comes to ergonomic issues, toxic chemicals, hazardous materials, on-the-job accidents, employee threats, dangerous equipment, bloodborne pathogens, the Needlestick Act and much more. We'll even walk you through a typical Cal/OSHA inspection tour and explain exactly what the Cal/OSHA compliance officer is looking for every step along the way.

Whether you have one employee or hundreds... as their employer, you are responsible for their safety.

In this must-attend seminar, you'll discover dozens of cost-effective ways for getting your organization into compliance, learn how to expand the effectiveness of your safety training program, find out how and when you **MUST** report a workplace injury or death, as well as when to record it and learn how to assess your organization for a variety of hazards. We'll also show you where to turn for up-to-the-minute information on Cal/OSHA's newest rules and regulations, so you can keep abreast of changes that might affect your work environment.

This seminar will set your mind at ease and make sure when Cal/OSHA knocks on your door, you'll be ready!

Get real-world answers to questions like these ...

- Who's at fault — my employees or me — when they fail to follow the safe practices I've initiated for them?
- What are Cal/OSHA inspectors looking for when they come to my organization?
- What does the new law, AB 2774, really mean to my organization?
- Will I be given advance notice of a Cal/OSHA inspection?
- Are Cal/OSHA penalties more severe than federal OSHA penalties?
- Who is responsible for unsafe actions committed at my organization by someone else's employees?
- Do I really need to display those Cal/OSHA posters in my workplace?
- How is an event defined as recordable or reportable?
- Can I get help from Cal/OSHA to fix the hazards in my workplace?
- What type of business is exempt from record-keeping requirements?
